

# ADMINISTRATION EXECUTIVE SUMMARY

## Ordinance 396-2020

Ord. 396-2020 amends the shared mobility legislation passed in June 2019 to remove the sunset provision of the permitting authority, update portions of the traffic code, and authorize additional actions by the Director of Capital Projects. Specifically, administrative amendments to Ord. 396-2020 include minor language updates to include mobility devices in applicable portions of traffic code and a recommendation to remove the speed limit provision for e-scooters. The administration also requests updates to Chapter 517 granting the Director of Capital Projects the authority to:

- Extend permit term for current vendors through next Spring,
- Establish a permitting schedule beginning in 2021,
- Establish permittee fines for violations, and
- Apply for and accept programmatic grants and contributions for the Shared Mobility Fund.
