

Department of Port Control

Ordinance No.: 646-2023

Executive Summary

The Department of Port Control (“Department”) is requesting authority to enter into one or more public improvement contracts, for improvements & renovations of various public restrooms at Cleveland Hopkins International Airport.

Background/Purpose:

The Department plans a restroom renovation project that will replace 25+ old fixtures, aging appurtenances, and accessories in 13 airport terminal restrooms, with similar in use equipment. The updated equipment will be high efficient, low maintenance, hygienic, dependable, and environmental standards, while meeting the tasks and functions necessary to maintain ADA compliance and expanding capacity and throughout. Projects upgrades and renovations are an effective way to reduce terminal capacity constraints and meet passenger needs, expectations, and experiences.

Scope:

The scope of work will include complete replacement of walls, floors, counters, fixtures, stalls, and appurtenances and accessories in 13 of the terminal restrooms. Energy efficient fixtures will be used along with low maintenances finishes, to help keep the facilities clean. The restroom renovation project will update and improve the passenger experience.

Justification/Urgency:

The improvements will allow the Department to meet environmental standards and improve the passenger experience.

Anticipated Cost:

\$1,600,000 FAA Bipartisan Infrastructure Law Grant Program

Schedule or Term of Contract:

The term of the proposed contract shall be upon the Director’s acceptance of completion of all services rendered under this agreement.
