Subject: Shared Mobility

Clerk Britt and Transportation Committee Chair McCormack,

Pursuant to CCO 517.071 Shared Mobility Grants and Contributions, I am reporting the Director of Capital Project's acceptance of a contribution of 279 installed bicycle racks and 71 signs for shared mobility parking hubs at 71 locations across the City of Cleveland from Cuyahoga County, stemming from jointly-pursued TLCI implementation grant funding from NOACA. These materials are valued at approximately \$170,000.

More information about the parking hubs and this project, should you be curious, is available here: <https://www.clevelandohio.gov/shared-mobility-hubs>. This project has been in development for several years and we are excited to have them installed across the city this spring and summer!

Please let me know if you have any questions or need further information.

Best,

Calley Mersmann
