

**DEPARTMENT OF FINANCE LEGISLATIVE SUMMARY**

**Resolution No.:** 671-2021

**Description:** Acknowledging that the City of Cleveland will become a Power A Clean Future Ohio Community and reaffirming the City's goal to reduce greenhouse gas emissions.

**User Departments:** Office of Sustainability

**Justification:** In order to support the City of Cleveland's sustainability priorities – as outlined in the Cleveland Climate Action Plan, the Sustainable Cleveland Municipal Action Plan, the recently completed 100% clean energy plan, and other administrative priorities – the City is seeking to join Power a Clean Future Ohio (PCFO). PCFO aims to provide Ohio communities support on the pathway to carbon emission reduction.

There is no cost associated with joining PCFO. As a PCFO community, Cleveland will be highlighted for its policy actions through their regular engagement strategies, and will have access to technical experts and supportive organizations to help develop and refine policy and programs to support the long-term transition to 100% clean energy.
