Re: Request for passage under suspension, amendment to Ordinance No. 660-2020.

Dear President Griffin:

Please let this correspondence represent our request for the above referenced legislation to be passed under suspension at the next City Council meeting. This amendment would change the name of the vendor listed under Section 2 of the referenced legislation from "Advance Control Systems, Inc. fka EFACEC ASC, Inc., to Minsait ACS, Inc.", whose name changed was adopted on March 4, 2022.

Minsait ACS, Inc. will provide proprietary software and the necessary items of materials, equipment, supplies and services necessary to maintain, repair, and replace proprietary components of CPP's SCADA equipment, needed in order to remain compliant with the North American Electric Reliability Corporation (NERC) Standards. It is critical to maintain the SCADA system with certain security measures. These security measures are mandated for reliability of the Bulk Electric Systems which includes the 138Kv lines of Cleveland Public Power.

If you have any questions, please contact me at 664-2444 X75604. Thank you for your consideration of this request.

Respectfully,

A handwritten signature in blue ink, appearing to read "M. J. Keane".

Martin J. Keane, Director
Department of Public Utilities

Approved:

Blaine A. Griffin, President
Cleveland City Council
