

Division of Water - Cleveland Public Power - Water Pollution Control

Request for Legislation

An ordinance authorizing the Department of Public Utilities (DPU) to enter into a requirement contract or contracts to test, maintain, and repair back-up electrical gear, diesel drives for pumps, petroleum based fuel equipment and computer backup systems at all DPU facilities, for a two year term.

Background/Purpose:

DPU has numerous facilities, including office buildings, water filtration plants, pump stations, sewerage lift stations and electrical sub-stations, each of which has a variety of power backup equipment, including turbine generators, diesel electric generators, diesel drives for water pumps, and propane electric generators. This equipment must be maintained on an ongoing basis.

Scope of Work/Commodities/Services:

The scope of work includes repairs and emergency services, maintenance and replacement for diesel generators, propane generators, fuel testing, fuel conditioning and recycling of diesel fuel, and the testing and replacement of underground fuel storage tanks.

Justification/Urgency:

The operation and integrity of the backup power generation equipment are critical to the integrity of the systems that provide electricity, remove sewage and produce drinking water for the population of the City and the neighboring communities. If the backup systems are not maintained or refurbished, DPU's ability to provide those services becomes impaired.

Anticipated Costs and funding source:

This requirement contract(s) is estimated to cost \$800,000.00 over its life. Operating or Capital Funds will be used as appropriate.

Schedule or Term of Contract:

Legislation will lead to a requirement contract or contracts for the term of two years.

Current Contract(s):

Vendor Company Name	Vendor Address/Contact	Services/Worked Performed under contract	Contract Info
Ohio Machinery Co. DBA/ Ohio Cat	3993 East Royalton Rd. Broadview Hts., Ohio 44147 Bob Shimko	Maintenance/Repairs of diesel powered generators.	Contract #: 2021-47 Awarded Amt: \$526,772.00 Contract Exp Date: 2/08/2021
Warner Diesel Filtration	2303 Cole Creek Dr. Norwalk, OH 44857 Dave Warner	Filtration of diesel fuel for generators.	Contract #: 2021-51 Awarded Amt: \$27,950.00 Contract Exp Date: 4/18/2021

CSB Participation on the Current Contracts:**Goals: 20 %; Actual CSB Participation: 0 %****If there is no CSB participation, explain why here:**

The goal for Backup Generators and Fuel Testing and Filtration was waived. As for UPS systems, it was determined that it was impractical to subcontract portions of the contract.

Vendors on the ITB Mailing List that Led to the Current Contracts(s):

See attached mailing lists.
