

LEGISLATIVE SUMMARY
Mayor's Office of Capital Projects
Division of Engineering and Construction

**Material Testing, Geotechnical, Environmental
and General Engineering Services**

Ordinance No. 501-2022

Purpose: This Department requests legislation to authorize the Director of the Mayor's Office of Capital Projects to enter into one or more Professional Service contracts to employ consultants and testing firms for the purpose of supplementing existing staff in order to provide professional services for construction activities and design projects for roads, bridges and City facilities from any and all funds as authorized by the Director of Finance.

Description: The successful firms will provide services for material testing, environmental testing, geotechnical engineering, environmental engineering, land acquisition, structural engineering, bridge inspection, transportation engineering for roads, bridges, retaining walls and slope stability analysis. Services will also include assistance with City tree damaged sidewalk program. Contract duration will be 2 years or until funds are expended. The top two (2) firms will receive an award.

Cost Estimate: Contract: Top two (2) firms at \$400,000 each

Funding Source: Road and Bridge Bonds

Project Schedule:

Request for Proposal:	March 2021
Award:	June 2021
Duration:	August 2021 to August 2023

Ward(s): City Wide

Justin M. Bibb, Mayor
