Division of Engineering and Construction

Clark Avenue Extension S.W. Intent to Vacate

Resolution No: 1395-18

Description: Declaring the intent to vacate a portion of the Clark Avenue Extension S.W.

Purpose: This request is being made by ArcelorMittal Cleveland LLC., the abutting property owner, whose property currently extends on both sides of the right of way of the limits of the requested vacation.

The old Clark Avenue Extension S.W. currently has sections of improved and unimproved roadway. Due to existing operations at the Mill, the area receives extensive traffic. The old existing right of way includes old bridge piers which were not removed during demolition of the old Clark Avenue Bridge in the 1980s. ArcelorMittal has plans to improve the proposed vacated area as it crosses the railroad tracks and to remove the old bridge piers to ease traffic.

Consent forms acknowledging approval of this request have been submitted by the Council Members.

Ward: Ward 3, Council Member Kerry P. McCormack
Ward 12, Council Member Anthony Brancatelli
