

LEGISLATIVE SUMMARY
Mayor's Office of Capital Projects
Division of Engineering and Construction

1500 West 3rd Street Encroachment

Ordinance Number: 701-2019

Description: Authorizing the Director of Capital Projects to issue a permit to K & D Real Estate Services to encroach into the public right-of-way of 1500 West 3rd Street by installing, using, and maintaining an awning and two sculptures and their foundations.

Purpose: This submittal for an Encroachment Permit involves work around the existing entrance of the Post Office Plaza building located at 1500 West 3rd Street. The work is to include a new awning to highlight the existing entranceway and also the addition of two sculptures, one on each side of that entrance. The two eagle sculptures were originally located on Public Square in front of the now demolished Chamber of Commerce Building (where Key Tower currently stands) and installed in 1898. Through historic photographs of the original installation two new pedestals for the sculptures will be built to replicate the original pedestal designs. The eagles were originally sculpted by Cleveland stonemason Joseph Carabelli and are being brought back to downtown Cleveland after 121 years.

A consent form acknowledging approval of this request has been received from the Council Member.

Ward: Ward 3 Council Member Kerry P. McCormack
