

## 2021 Program Descriptions

- 1. Project Clean-** Seasonal work crews are hired during the spring and summer to clean and cut vacant blighted city-owned lots, primarily in low/moderate income areas. These lots are targeted for redevelopment through the city's land reutilization program. The purpose of the City Land Bank is to acquire vacant and abandoned tax delinquent residential property and to market the property to individuals, developers and non-profit organizations for productive reuse. Funding supports the use of vacant, city-owned property as garden sites, provision of gardening supplies, and technical assistance to developers of neighborhood gardens. Produce generated is distributed among the Cleveland residents maintaining the sites and is donated to local food pantries.
- 2. Community Gardens-** Funding supports the use of vacant, city-owned property as garden sites, provision of gardening supplies, and technical assistance to developers of neighborhood gardens. Produce generated is distributed among the Cleveland residents maintaining the sites and is donated to local food pantries.
- 3. Demolition and Board-Up-** The Department of Building and Housing will administer a demolition program for condemned structures that pose a threat to the health/safety of Cleveland Residents.
- 4. The Mercado is a public facility to support public service activities and small business incubator type space for businesses to service a Low/Mod Area.
- 5. CDC/Citywide Support-** This program provides activity grants to City-wide organizations or Community Development Corporations for CDBG eligible services, public facility activities, economic development activities and real estate development activities in strategic geographic areas and neighborhoods. The primary objective is to fund activities that stabilize existing housing, provide housing opportunities for low-income residents, and improve the quality of life in Cleveland neighborhoods. City-wide organizations or Community Development Corporations either operate programs that provide a direct benefit to low- and moderate-income residents or help support City programs that provide the direct benefit to low- and moderate-income residents.
- 6. Storefront Renovation-** Financial and design assistance provided to commercial property owners and retail business owners to comprehensively rehabilitate buildings in targeted retail neighborhood districts and targeted retail buildings. Improvements will only address the exterior appearance of commercial buildings and, as needed, restore the architectural integrity of the structure according to federal design standards. Non-commercial buildings will also be eligible where a retail storefront will be created. Where mixed use structures are involved

(commercial/residential), program focus is the commercial presence of the building in the retail district. Exterior improvements will address maintenance, code and aesthetic items on the building as well as business signage that is within City codes; as well as functionally appropriate for the building. The Program does not address interior, residential code related items and does not result in decent, safe and sanitary units (DSS). Assistance will come in the form of grants, rebates, loans or forgivable loans.
